BANCC STUDY DAY 2018

Friday 14 September 2018

Cavendish Conference Centre,
22 Duchess Mews, London W1G 9DT

The A-Z of Cardiomyopathies for Cardiovascular Nurses

This year, BANCC has partnered with the British Heart Foundation and Cardiomyopathy UK to bring you a comprehensive study day focused on the care of patients with cardiomyopathies.

Once thought of as a rare disease, cardiomyopathies affect around 1:200 of the population. Cardiovascular nurses at all levels and roles will encounter these patients and families more often and now is the time to ensure you are up to date on the latest evidence for their nursing care and management!

As well as the keynote speech from international cardiomyopathy expert, **Professor Perry Elliott**, sessions include:

- Guideline update: Heart Failure, Anticoagulation, Valve care
- Breakout sessions: ECGs, ECHOS and cardiac genetics
- Innovations: nurse led echo and the Miles Frost Fund project
- Patient perspective: Syncope and cardiomyopathy in the young

Abstract submission deadline for poster presentations: 3rd of August 2018

To avoid disappointment, register early as places are limited.

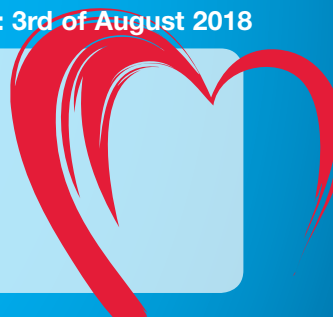

Please register via our website: www.bancc.org

BANCC members: Free registration

BHF Alliance members: 30 free places on a first come, first served basis, please provide your BHF Alliance number for verification

Non-members: £50 with free membership until 31st May 2019
